

Personal Weather Stations

(PWS)

for rainfall monitoring

PWS e.g. from Netatmo

There are other manufacturers e.g. Davis

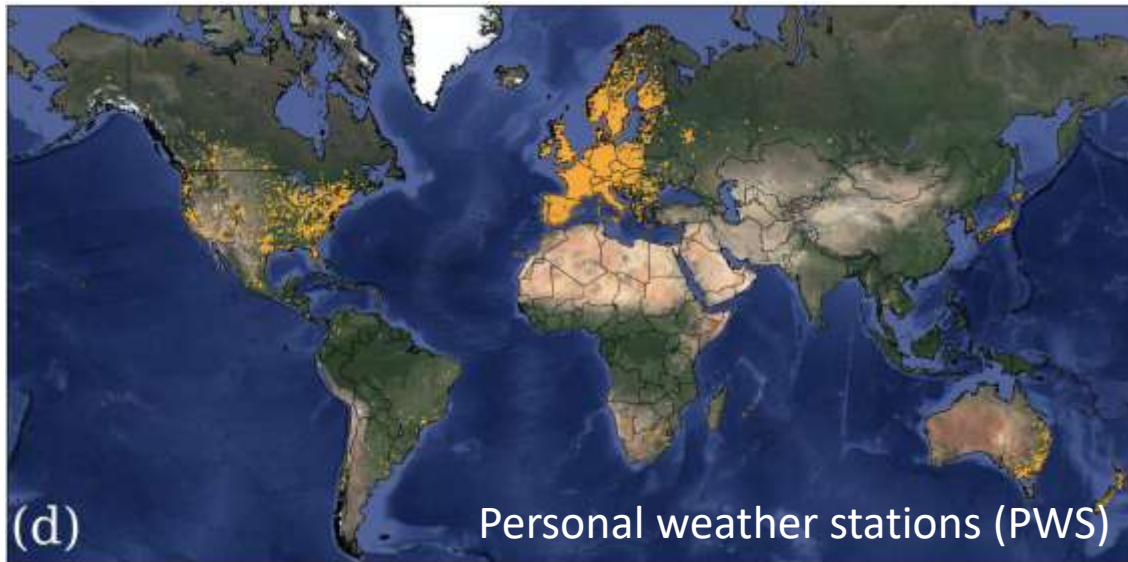

Personal Weather Stations
(e.g. from Netatmo)

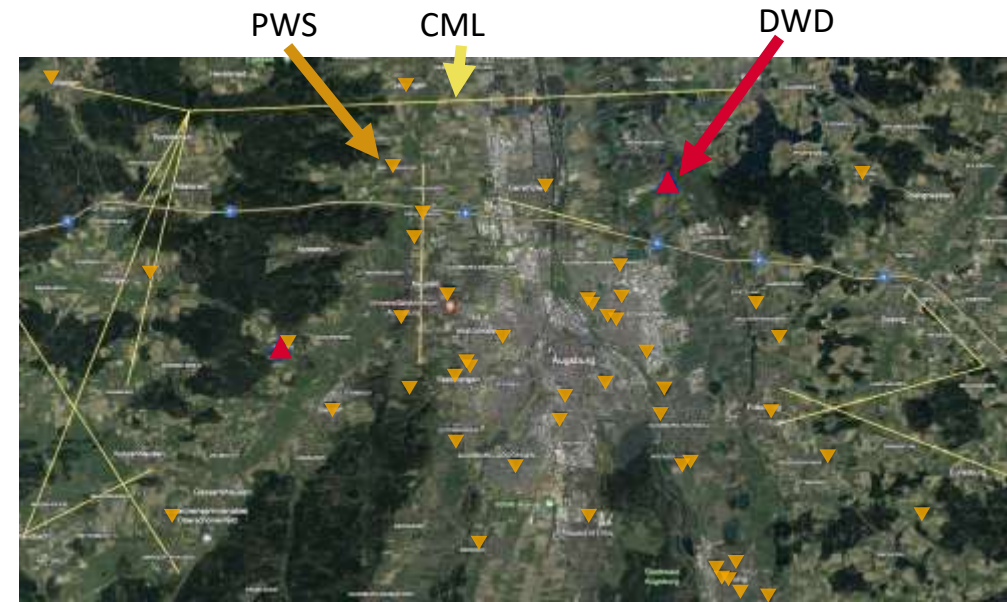

- Data is used by private persons
- They can share their data online

PWS at least 10 more dense than dedicate observation devies in Europe

Overeem et al. 2024

Google Earth

PWS typically are not installed after WMO standards → need for robust QC
